PROFILE

I am a passionate and confident Front-end Web Developer with an Associative Degree in Computer Science. I have experience in agile development, User Interface Design, and front-end development. My skills include proficiency in HTML5, CSS3, JavaScript, React.js, and Bootstrap. I am experienced in using Git and GitHub for version control and Figma for design. I am skilled in Responsive Design and Web Performance Optimization. I am eager to continue developing my skills and contribute to innovative web development projects.
